

Select Board Regular Meeting
Monday, June 5, 2023- 7:00 p.m.
Longmeadow High School, Meeting Room A15
535 Bliss Road, Longmeadow, MA
Hybrid Meeting

Select Board Members Present: Chair Joshua Levine, Mark Gold, Dan Zwirko, Thomas Lachiusa, Vineeth Hemavathi.

Staff Present: Lyn Simmons, Michael Barbieri, Paul Pasterczyk, Chief John Dearborn, James Leyden.

Also Present: Andrew Fox, Paul Dunkerly, Sarah Morgan, George Shea, Elizabeth Tyson, Gary Levine, Elizabeth Bone, Andrea Taupier, Jonathan Jordan, Patty Self, Rose Morace, Thomas Ewing, Matthew Schoen.

Chair, Josh Levine, called this meeting to order at 7:03 p.m. The meeting opened with the Pledge of Allegiance. LCTV was also utilized to broadcast and record the meeting.

Mr. Levine confirmed that all members and persons anticipated on the agenda were present and could hear and be heard throughout the meeting. Ensuring public access does not ensure public participation unless law requires such participation. This meeting allowed for public comment. Announcements

2023 Annual Town Election: Reminder - The 2023 Annual Town Election is set for Tuesday, June 13, 2023 at the Longmeadow Community House. Polls will be open from 7 a.m. - 8 p.m. For additional information on this years ballot and other resources, please visit www.longmeadowma.gov/Elections

Longmeadow Long-Range Plan Community Survey: Longmeadow's Long Range Plan Community Survey is now live! Filling out this survey is the single best way to help Longmeadow build a safe and resilient future, and only takes about 20 minutes. The results will help the Town better understand needs to improve quality of life for all of Longmeadow residents, such as around housing availability and needs, safe and accessible sidewalks and the ability to safely bike on streets, and the safety and accessibility of parks and sports fields, among other topics. Take the survey now by visiting www.longmeadowma.gov/CivicAlerts, or by requesting a paper copy at the Library, Town Hall, or Adult Center.

Longmeadow Climate Change Perspectives: Please join the Town of Longmeadow and Arts Integration Studio for a creative exhibit and community conversation focusing on Longmeadow's resilient and forward thinking, community scaled, and climate change solutions. The event will be held at the Longmeadow Adult Center on Friday, June 9, 2023 from 4 PM - 6 PM. To RSVP and learn more about the event, visit www.longmeadowma.gov/CivicAlerts

Resident Comments

Andrew Fox, of 29 Lorenz Street, was present to speak via ZOOM during the resident comment section of the meeting. Mr. Fox indicated that he was concerned about the frequency that we have recently been receiving notices concerning the elevated disinfection byproducts. Mr. Fox commented that the notice states that it is not an emergency, but talks about the fact that water-containing haa5s, drunk over many years, can cause an increased risk of getting cancer. Mr. Fox spoke about Springfield's plan to address this in 2028 and questioned

when Longmeadow will install the flushing devices and tank mixer and how much it would help these issues. Mr. Fox also questioned if residents will be able to obtain home water filters through a bulk purchase program to reduce exposure.

Select Board Comments

Mr. Gold gave an update from the PVPC's Metropolitan Planning Organization meeting. Mr. Gold explained that although we had thought the Longmeadow St. Route 5 project would be completed in the next two years, it seems unlikely at this point, and the longer it takes, the more expensive it is going to get.

Mr. Zwirko stated that over the last couple of weeks he has gotten many curbside trash complaints from residents. Mr. Zwirko requested that the Select Board invite Waste Management to an upcoming meeting to get a better understanding of their practices and determine if there are issues that we can work with them on as well. Mr. Zwirko also spoke about Mr. Fox's comments concerning the quality of water. Mr. Zwirko stated that he believes this is something we need to look at going into this next year and commented that 2028 is too late to address the issues that we have. Mr. Zwirko also have a thank you to everyone who attended and helped orchestrate the Memorial Day Service on the Town Green last week.

Town Manager's Report

Wolf Swamp Irrigation We are experiencing a few warranty issues with the irrigation system that are covered by the contractor RAD. Some of the irrigation lines were found to have breaks, which caused the irrigation control system to fault when it should have been watering overnight. Additionally, there is a programming issue that has been causing the water to not draw in the correct percentages between well and town supplies. Watertronics, who installed the pump controller, is scheduled to meet with Town water department next week to resolve the issue. SLR has been asked to come back and help coordinate the work with the contractors and ensure the contractual obligations are being met and the town's investment is being protected. The irrigation system currently operational. Both DPW staff and SLR are monitored the fields closely and contingency plans are in place should the system go down again.

North Interceptor Project The survey work was completed and then reviewed again to ensure the easements were correctly delineated within the project area. DPC, the Town's Engineering firm on this project, has confirmed that the surveys are complete and encompass the project area. Appraisals and review appraisals were done and offers to purchase the easements were sent out to the four affected parcels. DPW is answering questions and working with legal counsel for three of the properties. The fourth property has signed the easement. As a reminder, the North Interceptor conveys sewage from the area west of Longmeadow Street from the Springfield line down to Emerson Road. This is a "backbone" of the sewer system that extends about one mile and mostly inaccessible, as it is located on the slope abutting I-91. This is a project that the DPW has been working on and trying to move through for many years. The line is old and in poor condition and very difficult to maintain when it blocks and overflows. To replace this line, easements will be needed. There are four properties affected and easement compensation offers have been sent. One owner has signed the easement. The three other owners are disputing the appraisals and asking for higher compensations.

Playground Replacements With successful funding through the FY2024 Capital Improvement Program and Community Preservation Act grant at the Annual Town Meeting, we are developing the timeline for the project. At the June 26, 2023 Select Board meeting, Ms. Simmons will be bringing a request to revise the ARPA plan that was voted on January 3, 2023. The request will be to reallocate the funds for the Center School window project (\$600,000) and repurpose them toward the playground project. Recently, an initial meeting was held with the Superintendent of Schools, the Assistant Superintendent, the three elementary school Principals, DPW

Director, the Facilities Director and Ms. Simmons with M.E. O'Brien, the Town's architect on the project. We discussed the timeline, public involvement, logistics for demolition and construction. The project architect will be meeting with each school to learn about their student needs, school schedules, site requirements and restrictions, future growth etc... We are committed to gathering public input, but the process for this is still being refined and more information will be available soon. Availability of playground equipment is currently running 26- 40 weeks out. With funding for the project not available until July 1, the timeline to receive equipment and the required procurement steps, we are planning for a spring/summer 2024 construction schedule. While this schedule is not as quick as we had originally hoped, it will provide ample time to ensure we have the right design and can accommodate the school schedule in a way that will lessen the impact to students.

Mr. Levine questioned if the system breaks have been fixed for the irrigation at Wolf Swamp. Ms. Simmons commented that she does not believe it is keeping to the schedule that it is supposed to be programmed to and DPW has been monitoring the system. It is working but not as consistently as it is supposed to. Mr. Levine also confirmed that the easements on the Interceptor Project were permanent easements. A discussion also ensued about the status of the playground replacement projects. Mr. Zwirko asked for an update on the irrigation at Glenbrook Fields. Ms. Simmons stated that we are still having issues with that irrigation pump and we are currently monitoring to make sure the grass is continuing to grow.

Interviews

A. Board and Committee Annual Interviews (*To view the recording of all the interviews, click [here \(18:00 – 1:00:00\)](#)*).

Matthew Schoen, of 294 Ellington Road attended to interview for reappointment to the Audit Committee.

Thomas Ewing, of Converse Street, attended to interview for reappoint to the Building Committee.

Rose Morace, of Longfellow Drive, George Shea, of Duxbury Lane, and Elizabeth Tyson of 108 Maple Road, attended to interview for reappointment to the Council on Aging Board of Directors. Patty Self, of 5 Homestead Boulevard, attended to interview for appointment to the Council on Aging Board of Directors.

Elizabeth Bone, of 34 Elizabeth Circle, attended to interview for reappointment to the Energy and Sustainability Committee. Gary Levine, of 207 Williams Street, attended to interview for appointment to the Energy and Sustainability Committee.

Sarah Morgan, of 977 Longmeadow Street, attended to interview for appointment to the Historic District Commission and Historical Commission.

Jonathan Jordan, of 756 Longmeadow Street, and Andrea Taupier, of 2 Kenmore Drive, attended to interview for reappointment to the Historic District Commission.

Guest Speakers / Presentations

A. Paul Dunkerly – Sister City Agreement with Takikawa, Japan

Paul Dunkerly, of 234 Kenmore Drive, thanked the Board for allowing him to attend this meeting to discuss the Sister-City agreement with Takikawa City. Mr. Dunkerly explained that the relationship with Takikawa is now 17 years and started as an offshoot from a relationship with Springfield. There was an opportunity for Longmeadow to have a cultural exchange with Takikawa and the relationship has blossomed since, Mr. Dunkerly stated. Every three years, a group of Longmeadow students spends some time in Takikawa City and the group visits other area of Japan as well. The most important part is the bonds and ties made with the people of Takikawa City. The relationships that are forged and changes that occur are nothing short of amazing, Mr. Dunkerly commented. Mr. Dunkerly stated that we are asking the Select Board to adopt and endorse the sister-

city agreement to recognize this effort so that it can go on in perpetuity. There is no financial obligation from the Town; Mr. Dunkerly went on to say. This endorsement will acknowledge the relationship and allow for formal visits from Takikawa to flourish. Mr. Dunkerly went on to explain some examples of how these relationships have grown over the years, and how the understanding of different cultures has benefited our students greatly. Mr. Dunkerly also explained that there is a trip set up for our students to visit Takikawa in April of 2024 and the interest exceeds the amount of spots available to go. Mr. Levine questioned what the Sister-City agreement entails and if it was similar to a memorandum of understanding. Mr. Dunkerly commented that it was like a memorandum of understanding and that agreement would be available once process is intended to move forward. Ms. Simmons explained that the letters uploaded onto this agenda were addressed to the school department and the Town received our letter today. If the Select Board moves to go forward with this agreement, there would be a formal signing ceremony sometime in the fall, Ms. Simmons added. Mr. Gold explained that this is a phenomenal opportunity for our students and citizens to learn more about different cultures and looks forward to the relationship continuing. The Board thanked Mr. Dunkerly for attending the meeting to present this.

Old Business

A. Approval of Meeting Minutes – Deferred

B. FY2023 Town Manager Annual Evaluation

Mr. Levine explained that the review and conversation around the Annual Evaluation were very positive and thanked Ms. Simmons for the work she has done. Mr. Levine explained that we would be holding an additional executive session in a few weeks to continue the conversation. Mr. Gold explained that in the reviews you would see comments in various sections, which are meant to be constructive in areas of growth rather than critical. Mr. Lachiusa commented that Ms. Simmons is doing a great job and looks forward to the continued work. Mr. Zwirko stated that Ms. Simmons is always accessible and helpful with any questions he may have and it has allowed him to learn more about how the Town operates in a short period. Mr. Hemavathi stated that Ms. Simmons' breadth of knowledge stuck out when he started on the Board and allowed for the transition of jumping in during the middle of budget season to move smoothly. The Board will continue this discussion at their next meeting.

C. Legal RFP Recommendation and Appointment

Mr. Levine explained that he has a conflict of interest for the counsel appointment and has to recuse himself from the vote and conversation. Mr. Gold explained that we had asked Ms. Simmons to look at reappointing legal counsel and going through the bidding process. Mr. Gold commented that it is not because they are not giving us good service or advice, but it behooves the Town and Board to always look at whom we are using for legal counsel. Mr. Gold explained that we have one counsel for legal general matters, and another used for labor counsel relative to negotiations and contracts. Mr. Gold commented that a few weeks back the Select Board directed the Town Manager to meet with Department Heads to review the proposals. Ms. Simmons stated that the group met and reviewed all eight proposals and were enthusiastic about the legal counsel submission from Mead, Tallerman and Costa. This firm gave an option of three different fee structures and the group liked that they had office hours that would be dedicated to the Town once a month. Their hourly rate was also lowest of all the submissions and they had an enormous amount of municipal clients. Ms. Simmons stated that she received glowing reviews from other communities about the service from Mead, Tallerman and Costa. The Department Heads group was supportive of switching to this firm. Ms. Simmons explained that the group in general had a decent review of working with Doherty, Wallace, Pillsbury and Murphy (DWPM, current counsel). Their hourly rate was comparable to the rest of the firms. The \$250/hr for attorneys and \$185/hr for

paralegals was more than Mead, Tallerman and Costa, which is \$190/hr for attorneys and no charge for paralegals and support staff, Ms. Simmons added. It remains to be seen what the cost savings would be, although Ms. Simmons believes it is fair to say that there would be cost savings if we were to go with Mead, Tallerman and Costa. For Labor Counsel, Ms. Simmons explained that the group was comfortable with staying with Sullivan, Hayes and Quinn and noted that they were the least costly option of those who submitted and have a substantial reference list from municipal clients. Mr. Lachiusa stated that he appreciates the work done in evaluating these proposals, but stated he feels having local firms representing the Town is more beneficial. Mr. Lachiusa stated that he would like to keep spending local and if we had a conflict of interest where current counsel could not serve us, and then he would feel comfortable using Mead, Tallerman and Costa as a backup. Ms. Simmons stated that when this conflict occurred, she did not reach out to any firm who had submitted a bid for general counsel. Mr. Zwirko agreed that it is important to have local representation and stated that DWPM has done a great job as far as he knows. Mr. Zwirko commented that he was in favor of the office hour's concept and wondered if we could look into building this into the work with DWPM. Mr. Hermavathi stated that Mead, Tallerman and Costa has the most experience in municipal work and the expanded services and lower rate would benefit the Town greatly. This recommendation from Town departments leads him to moving in this direction. Mr. Hemavathi questioned negotiating going forward and how the process would work. Mr. Gold commented that from time to time at an MMA meeting or another event in Boston we find out that some of those firms have a lot more experience than Western Mass firms when it comes to dealing with municipal law. Mr. Gold feels the breadth of experience, exposure benefits the Town of Longmeadow, and we have a lot to gain from this change. Mr. Gold commented that although they are not local, they are only a zoom or phone call away. The true penalty of being further away is not the same anymore due to the virtual world, Mr. Gold added. Mr. Gold stated that it seems the Department Heads group believes the legal presentation would be equivalent if not better with Mead, Tallerman and Costa, and at a lower cost. A lengthy discussion ensued about the services, references, and financial costs of the proposals.

Mr. Gold suggested carrying the legal general counsel appointment vote over to the next meeting and encouraged members to ask Ms. Simmons any questions they may have. Mr. Zwirko suggested going back to current legal counsel to negotiate other services as well.

Mr. Gold brought up the labor counsel appointment and commented that it is great to have institutional memory of the negotiations and issues going on. Ms. Simmons commented that Sullivan, Hayes and Quinn was not only the least costly option, but we also have the benefit of the historical knowledge and great working relationship.

Mr. Lachiusa made the motion to appoint Sullivan, Hayes, and Quinn as Labor Counsel for FY2024. Mr. Zwirko seconded the motion. The motion passed unanimously by a vote of 5-0.

D. Dog as Nuisance Complaint Update

Mr. Levine stated that in the opinion of Counsel and based on the reading of the bylaw, the Select Board has to cause investigation of any complaints of this nature. Mr. Levine stated that the Dog Officer met with the complainant and the owner of the dog and is trying to resolve in an amicable way. The report is uploaded to the agenda. A request was made for office staff to confirm with the complainants if they would still choose to go forward with the hearing, or if the complaint has been handled and would like to be dismissed. Mr. Gold requested that this investigation letter be sent to both parties for them to have knowledge of where the situation currently is. Mr. Levine stated that a bylaw change could happen in the future to state that the Animal Control officer investigates before moving forward to the Select Board for a hearing.

E. HCRRB COLA 5% Adjustment

Mr. Levine commented that we are planning to invite Mr. Schmalze to the next meeting to explain this request.

Mr. Levine suggested that the Board send over questions to him in advance so that Mr. Schmalze is aware of what will be asked ahead of the meeting.

New Business

A. FY2024 Ambulance Rates Review

Chief Dearborn explained that annually he provides a snapshot of services and rates to be reviewed. Chief stated that we have seen a 14% increase over last year and 10% needs of services increase since 2019. Projection for this year was around \$880,000 and we just went over \$1,000,000, the Chief explained. The LFD will end up putting \$200,000 plus into the EMS savings account. Chief Dearborn stated that we would be adequately funded for the next ambulance through this account. The Chief is requesting a 3% increase over last year and this is calculated through a cost analysis of the department. He went on to explain that for residents who are on Medicaid or Medicare, the billable amount is actually capped. Fully insured residents pay the rates that are being discussed. A discussion ensued about the FY2024 rates and staffing levels since the pandemic.

Mr. Gold made the motion to accept the EMS rated for FY2024 as outlined in the memo from Chief Dearborn.

Mr. Hemavathi seconded the motion. The motion passed unanimously by a vote of 5-0.

a. Emergency Services Cost Recovery Rates

Chief Dearborn explained that from time to time, Emergency Services in Town, Police, Fire and DPW, encounter situations where there is a potential cost recovery. The most common instance is under 21e, which are environmental hazardous material operations. This does affect the Fire Department more than any other department and we do see this mainly on the highway for chemical spills, etc. The costs are recoverable from the responsible party and by the Board approving, these established rates; it lessens the opportunity for insurance companies to negotiate rates, Chief Dearborn commented. The rates do not change that much and the last time this was done was 2018. The cost recovery rates go back into the General Fund, Chief Dearborn stated.

Mr. Gold made the motion to approve the Emergency Services Cost Recovery Rates as proposed by Chief Dearborn. Mr. Zwirko seconded the motion. The motion passed unanimously by a vote of 5-0.

b. Ambulance Fund Policy Amendment

Mr. Pasterczyk stated that back in 2010 the Select Board created a policy in order to protect a certain portion of the excess ambulance revenue over budget. This was so that when the time came to purchase a new ambulance/equipment, it did not affect the general reserves because of the creation of the ambulance fund. The policy has been modified over the years, which has been in relation to the amount in fund balances kept aside. This request is coming forward today in order to modify that amount. The bid for a new ambulance came back at \$411,000 and currently the fund balance as it stand would not be protected, Mr. Pasterczyk explained. The recommendation is to raise the amount to \$500,000. Mr. Pasterczyk also mentioned the allowable uses in the policy and requested that an insert be placed in the second bullet. A request was made to insert “by appropriate vote of Town Meeting” as part of the amendment so that there is no question on how this money is approved and appropriated. Mr. Gold spoke about the origin of the Ambulance Fund and suggested that the amendment also include “after sufficient funds are available to assure the purchase of a new ambulance.” The initial vote of Town Meeting was to assure that there was always adequate funding for a new ambulance, Mr. Gold added. Mr. Pasterczyk stated that there is no issue with that amendment, and stated excess revenue from ambulance should be left aside so that you have a projection of when a new ambulance is going to be purchased, that you actually have money within that fund to pay for this. Some of these funds are used for direct costs, training and personnel as well, Mr. Pasterczyk stated. Mr. Levine questioned if this amendment will affect the bonding article from the last Town Meeting. Mr. Pasterczyk stated that the bond was already issued and should not affect anything. This is more of a protection of a higher level of money because of the rise in cost of a new ambulance.

Mr. Gold made the motion to approve the changes in the Ambulance Fund as follows: that the not allowed uses be changed in two instances from \$350,000 to \$500,000 as recommended, and the second bullet of allowed usages of funds be amended to say "upon appropriate vote of Town Meeting and with the assurance that the fund is on track to fully fund a new ambulance when necessary, and fund direct and indirect costs." Mr. Lachiusa seconded the motion. The motion passed unanimously by a vote of 5-0.

B. FY2024 Water/Sewer/Stormwater Rates Review

Rates were calculated for Water/Sewer/Stormwater for FY2024. The rates were discussed separately as listed below.

Water Rates: Mr. Pasterczyk explained the calculation for the water rates. A detailed discussion ensued about the services and increases. A rate of \$3.77 per hundred cubic feet was recommended, a 2.45% increase over FY2023. Mr. Levine questioned what the reserves are at currently for Water. Mr. Pasterczyk explained that it was currently at \$452,000 and is projected to be at around \$600,000 at the close of the fiscal year. Mr. Gold stated that the fixed rate or meter rate has not increased as far as he knows and suggested amending the \$115,000 to \$120,000 in base rate distribution charges. Mr. Gold also suggested changing the use of retained earnings from \$0 to -\$50,000 to reduce the overall rate. Mr. Pasterczyk cautioned with using \$50,000 out of reserves, annually there are recommendations for maintenance or water/sewer projects at Town Meeting, if there is not enough money in the account then these projects will need to be bonded. Mr. Gold recommended moving the meter fees up by 4.3% to \$120,000. Mr. Levine stated that he was comfortable with this approach rather than taking from reserves.

Mr. Gold made the motion to accept the FY2024 Water Rate at \$3.76 per hundred units. Mr. Lachiusa seconded the motion. The motion passed unanimously by a vote of 5-0.

Sewer Rates: Mr. Pasterczyk explained that sewer rates are calculated the same by taking the budget and lowering by the ancillary revenues that are coming in. The issue is getting a historical amount of billable units since the process was changes last year of moving to the summer cap. The original rate for FY23 was \$2.75 and the original billable units was \$698,310, Mr., Pasterczyk indicated. With a summer cap of 55 units per quarter, that amount was increased to \$3.26 because the billable units had dropped to \$610,271. The \$615,000 units was estimated for FY24. The recommendation of \$3.13 was made for FY24 with the same caps that are in effect for FY23 at 55 units for the first billable quarters. Mr. Gold indicated that this is the first full year with the summer cap and suggested keeping the numbers as recommended. A discussion ensued about reserves and the calculation of estimated billable units for FY24.

Mr. Gold made the motion to set the sewer rate for FY2024 at \$3.13. Mr. Hemavathi seconded the motion. The motion passed unanimously by a vote of 5-0.

Stormwater Rates: Mr. Pasterczyk stated that stormwater fees do not cover 100% of the requirements and it is calculated in a different way. In order to meet the Select Board goal of full funding this account by 2035, the rate covers the full budget and goes up by a little over 4% every year. The amount being required from rates in FY24 is the 54.83% of the FY24 budget, which is the topline of \$1,242,000 appropriated at Town Meeting. The remaining portion of the balance is funded through taxation, Mr. Pasterczyk added. A discussion ensued about the recommended fees for FY24.

Mr. Lachiusa made the motion to set the FY24 stormwater fee at \$7.61 per ERU. Mr. Gold seconded the motion. The motion passed unanimously by a vote of 5-0.

C. COA Revolving Fund Increase

Mr. James Leyden was in attendance to request an increase in the COA revolving fund account to \$180,000 so that we can learn the spending trends and adjust going forward in future budgets. The initial estimate of \$150,000 came up short, Mr. Leyden explained. Mr. Pasterczyk explained that there is no downside in

increasing this further to account for the remainder of the fiscal year.

Mr. Gold made the motion to authorize an increase to the COA Revolving Fund Account to \$250,000. Mr. Lachiusa seconded the motion. The motion passed unanimously by a vote of 5-0.

D. MSBA Feasibility Study Agreement – Select Board Authorization

Ms. Simmons explained that this is another benchmark in the MSBA process. This request is for the Select Board to authorize the Town Manager to sign the agreement and any other necessary documents with the MSBA.

Mr. Gold made the motion to authorize the Town Manager to approve and sign the MSBA Feasibility Study Agreement. Mr. Hemavathi seconded the motion. The motion passed unanimously by a vote of 5-0.

E. Set 2023 Fall Special Town Meeting

Mr. Lachiusa made the motion to set the Fall Special Town Meeting as Tuesday, November 7, 2023 at 7 PM at the Longmeadow High School Gymnasium and to follow these guidelines for article submissions. Mr. Zwirko seconded the motion. The motion passed unanimously by a vote of 5-0.

Correspondence (All Correspondence material can be found in the SB agenda packet linked under “documents” at the end of these minutes).

NOTICE OF COMMENT PERIOD EXTENSION – EEA 16556 WESTERN MA GAS RELIABILITY PROJECT, SPRINGFIELD AND LONGMEADOW.PDF
